## Description:

Elegant, yet functional, the Arc deck-chair is a bold statement from Boneli revealing their design philosophy - think differently; step away from the ordinary; alter the existing, while fully preserve or add to its functionality. By arching the legs of an existing deck chair, redesigning the fixing mechanism, and adding small design details Boneli has completely transformed the look of a fairly ordinary object, elevating it to a whole new level – the luxury market. The Arc chair is suitable for modern hotels and extraordinary vacation homes.

## Key features:

- elegant styling
- innovative fixing mechanism
- removable canvas
- three fixed positions

\* The chair is ready for production and we are currently signing in orders
