## Description:

The Party sofa was designed with the intent to create an elegant piece of furniture by gently tweaking the lines of the traditional boxy-shaped sofas. Thus, still using traditional frame-construction methods, the Party sofa looks a lot more elegant and eye-catching. It becomes the conversational topic of the evening, the center piece of your interior, the eye candy of your nest.

## Key features:

- removable seat and backrest covers
- multipurpose armrests which can be used as extra seats or as tabletop surfaces
- dismountable backrest
